

# Spelling Words

This class is all about making spelling more exciting for students. Here's how it works: Every student takes their turn to spell a word for their team. If they spell it right, you'll click to reveal a piece of the picture. The student can guess what's in the picture but only during their turn. Once you show the picture, they can give solving the riddle a shot, but only during their turn.

## *3rd-5th Grade Spelling Words*

Give each student a word to spell during their turn. Instruct them to write the word down on paper before revealing the spelling to you.

This exercise helps them establish connections in their brain and practice spelling both on paper and in their mind.
